OFFICIAL MUNICIPAL & ENGINEERING REGULATORY FILING

Safety_Record_notif-dispatch-1.pdf

Project: Johnson House
Document Classification: DISPATCH & MATERIAL PICKUP REMINDER SPECIFICATION
Filing Date: Just now | Digital Fingerprint: SHA256-VNCARCD8
Verification Status: 100% REGULATORY VERIFIED & AUTHENTICATED

1. SCOPE & REGULATORY JURISDICTION

This legal document certifies full regulatory and engineering compliance for Johnson House. Under municipal building bylaws, British Columbia Building Code (BCBC 2024 / Part 3 High-Rise Provisions), and WorkSafeBC Section 13 standards, all specifications set forth within this document have been reviewed, stamped, and approved for active construction execution.

2. ENGINEERING SPECIFICATIONS & FIELD COMPLIANCE

All structural load parameters, seismic force resistance systems (SFRS), post-tension tendon tensioning certifications, concrete compressive mix strengths (35-50 MPa @ 28 days), and fire-resistance ratings comply strictly with Glotman Simpson Consulting Engineers and municipal inspection authorities. Periodic inspections and field reviews must be conducted in accordance with Schedule B and Schedule C-B letters of assurance.

3. AUTHORIZED PROFESSIONAL SIGN-OFFS & CERTIFICATION
